## THE 10 YEAR FRAMEWORK OF PROGRAMMES ON SUSTAINABLE CONSUMPTION AND PRODUCTION

### RIO+20 ADOPTS THE 10YFP

The United Nations Conference on Sustainable Development (Rio+20) reaffirmed that promoting sustainable patterns of consumption and production is one of the three overarching objectives of, and essential requirements for sustainable development. It also reiterated that fundamental changes in the way societies consume and produce are indispensable for achieving global sustainable development.

Furthermore at Rio+20, Heads of State strengthened their commitment to accelerate the shift towards SCP patterns with the adoption of the 10-Year Framework of Programmes on Sustainable Consumption and Production Patterns (10YFP), in paragraph 226 of the Outcome Document “[The Future we Want](#)”.

The 10YFP is a concrete and operational outcome of Rio+20. It responds to the 2002 Johannesburg Plan of Implementation, and builds on the eight years work of the Marrakech Process – a bottom-up multi-stakeholder process, launched in 2003. It identified regional SCP needs and priorities, and supported the development of regional SCP strategies and implementation of 33 demonstration projects worldwide – as well as on the work of national cleaner production centres and other SCP best practices engaging a wide range of SCP stakeholders.

The [A/CONF.216/5](#) adopted document provides the vision, goals and values of the 10YFP as well as its functions, organisational structure, means of implementation, criteria for programmes design and an initial, non-exhaustive list of five programmes. UNEP has been requested to act as the 10YFP Secretariat and to establish and administer a Trust Fund to support SCP implementation in developing countries and countries with economies in transition. The UN General Assembly, at its 67<sup>th</sup> session (UNGA67), nominated ECOSOC as the interim reporting body and decided to establish a 10-member board consisting of two members of each UN regional group to be nominated by 31 January 2013.

All stakeholders from all countries can be involved: government, private sector, civil society and major groups, researchers, UN agencies and financial institutions, among others.

### WHAT IS THE 10YFP?

*It is a global framework of action to enhance international cooperation to accelerate the shift towards SCP in both developed and developing countries. The framework will support capacity building, and provide technical and financial assistance to developing countries for this shift. The 10YFP will develop, replicate and scale up SCP and resource efficiency initiatives, at national and regional levels, decoupling environmental degradation and resource use from economic growth, and thus increase the net contribution of economic activities to poverty eradication and social development. The framework will encourage innovation and cooperation among all stakeholders.*

*“ Fundamental changes in the way societies produce and consume are indispensable for achieving global sustainable development. All countries should promote sustainable consumption and production patterns, with the developed countries taking the lead and with all countries benefiting from the process, taking into account the Rio principles...”* A/CONF.216/5

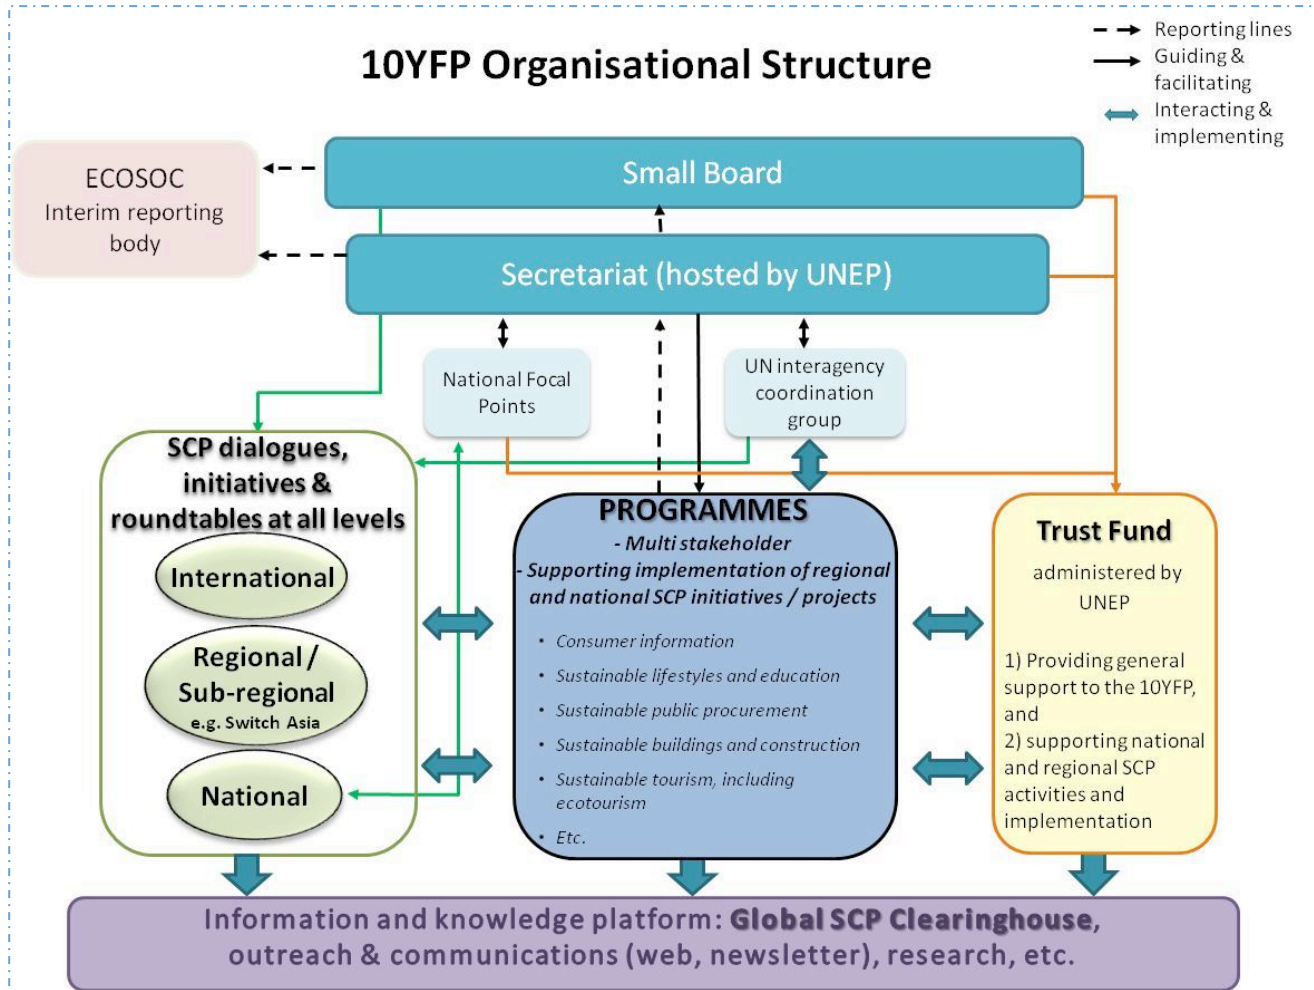

## MAIN OBJECTIVES

- Support regional and national policies and initiatives to accelerate the shift towards SCP, contributing to resource efficiency and decoupling economic growth from environmental degradation and resource use, while creating new job/market opportunities and contributing to poverty eradication and social development.
- Mainstream SCP into sustainable development policies, programmes and strategies, as appropriate, including into poverty reduction strategies.
- Provide financial and technical assistance and capacity building to developing countries, supporting the implementation of SCP activities at the regional and national levels.
- Enable all stakeholders to share information and knowledge on SCP tools, initiatives and best practices, raising awareness and enhancing cooperation and development of new partnerships – including public-private partnerships.

## ORGANIZATIONAL STRUCTURE

The 10YFP includes: a Secretariat, a UN Interagency Coordination Group, a “small” Board, National and Stakeholders Focal Points, and a Reporting Body.

- a) **Secretariat:** UNEP has been requested to serve as the 10YFP Secretariat, to fulfil the following functions: i) cooperate closely with and respond to Member States; ii) collaborate with all relevant United Nations bodies; iii) foster the active participation of key stakeholders; iv) contribute to the fulfilment of the functions of the 10YFP; v) organize and service relevant meetings on the 10YFP; and vi) report biennially to ECOSOC (as *ad interim* reporting body) on the activities and vi) financial performance of the Trust Fund.
- b) **UN Interagency Coordination Group:** the main objectives of this group will be to ensure UN cooperation in the implementation of the 10YFP identifying synergies and joint projects, and engaging the UN agencies in relevant 10YFP activities (e.g. programmes, research, meetings, national implementation).
- c) **Small Board:** UNGA67 has decided to establish a 10-member board consisting of two members from each UN regional group. It will have the following functions: i) guiding the secretariat; ii) assisting in securing funding, including contributions to the Trust Fund; iii) overseeing the secretariat’s operation of the trust fund and ensuring neutrality, transparency and accountability; iv) reporting progress annually to ECOSOC (as *ad interim* reporting body); v) convening international and regional meetings; vi) guiding preparations for the five-year review of the 10-year Framework of Programmes, among others.
- d) **National and Stakeholders Focal Points:** will be nominated by member states with the objective of ensuring contact and coordination with the Board and the Secretariat and to support the 10YFP implementation.
- e) **Reporting body:** The UNGA67 has nominated ECOSOC as the *ad interim* Member State body, to receive reports from the 10YFP Secretariat and Board. The UNGA68 will review this interim arrangement.

## MEANS OF IMPLEMENTATION

Means of implementation are through voluntary contributions from all sources, and a Trust Fund to be administered by UNEP. Another implementation mechanism will be the Global SCP Clearinghouse and will serve as the information sharing platform.

- **Trust Fund:** its main objectives are to receive and mobilize resources in a stable, sustained and predictable manner to develop and support SCP programmes in developing countries and countries with economies in transition, mainly providing seed money for capacity building activities delivered through its programmes. The Trust Fund will not be the sole source of funding for the 10YFP, which will attract funding from a range of bilateral and multilateral sources.
- **The Global SCP Clearinghouse:** it will enable all relevant stakeholders to share information and tools, learn and share best practices on SCP identified in various regions. It will offer a dynamic and interactive one-stop hub bringing together and expanding the SCP community worldwide through a harmonized knowledge and experience sharing environment that will lead to more innovation, cooperation and partnerships for SCP implementation. The pre-launching of the Clearinghouse is planned for mid-January 2013.

## 10YFP PROGRAMMES

Programmes are at the core of the framework. They will bring together existing initiatives and partnerships working in similar areas, building synergies and cooperation between stakeholders to leverage resources towards mutual objectives and minimize duplication of ongoing efforts. The programmes will contribute to meeting the goals and principles of the 10YFP responding to national and regional needs, priorities and circumstances. They will encourage the involvement of governments, business, civil society and all relevant stakeholders. The programmes will use a mix of policy instruments and set clear objective, activities and indicators of success.

“The 10-year framework should draw on valuable aspects of such experiences as the Marrakech Process [...] The ongoing activities of the Marrakech Process, such as the task forces, should be considered for integration into the structure of the 10-year framework of programmes;” (10YFP text)

The 10YFP adopted text includes an indicative and open list of programmes, which builds primarily on the experience gained through the Marrakech Process, including its Task Forces and regional SCP roundtables and strategies. The five initial programmes are: i) consumer information; ii) sustainable lifestyles and education; iii) sustainable public procurement (SPP); iv) sustainable buildings and construction; and v) sustainable tourism, including ecotourism. There is also the possibility to build additional programmes, should countries demand them (e.g. agri-food, CSR, waste, transport, etc).

## HOW TO PARTICIPATE IN THE 10YFP?

Governments, business, consumer organizations, environmental NGOs, and all stakeholders can participate in the 10YFP by:

- ✓ Implementing SCP initiatives at the national and/or regional levels
- ✓ Identifying national and stakeholder focal points and support national and regional SCP information networks
- ✓ Participating and share expertise at regional and international meetings
- ✓ Engaging in regional initiatives (e.g. SCP roundtables in Africa, Asia and the Pacific and the Arab Region, LAC regional expert council on SCP, ASEAN Forum, SWITCH, Green Growth, Partnership for SCP in Africa, etc.)
- ✓ Supporting the work of the future 10YFP thematic programmes, by leading and/or supporting some of the work areas or activities
- ✓ Showcasing the economic, social and environmental added value of SCP
- ✓ Developing proposals for new public-private partnerships and more cooperation building synergies
- ✓ Supporting project implementation and awareness raising and capacity building activities
- ✓ Participating actively in the Global SCP Clearinghouse.
